

# All Or Nothing

Nafe Smallz

Can't let 'em get to me  
I change my number respectfully  
She don't care. She just wants sex from me  
Envy and jealousy  
Versus all the prayers that's blessing me  
I keep this Bible right next to me  
Roll up the loud  
But more time the silence is deafening  
Niggers ain't who they pretend to be  
My favourite saying's it is what it is  
But it's jarring  
'Cause more time it ain't what it's meant to be  
Maybe it is they said low him  
I put him in riz  
I don't need no guidance. I'm Chris  
Rappers ain't good in their hood  
So, they party in West  
Throw a dance and bring all the celebs to my bits  
Like last time I checked, I'm him  
Last time I checked, I'm Chip  
Last time I checked  
Anybody that dared try to check me  
Call names like assembly got checked off the list

Boy this the Super League  
This ain't Champions League of the Prem  
Peace of mind. I find zen in a pen  
Yeah. Truthfully  
I see niggers intentions ain't pure  
We don't need guidance from them  
It's cute to me how niggers just look like they want it  
Them boy put the pre in pretend  
You better root for me  
'Cause Chippy been here from the start  
Guarantee I'll be here in the end

The trap stay jumping  
The gat stay dumping  
You know I'm all in. Yeah  
You don't stand for shit  
You're gon' fall for nothing  
If it's all or nothing  
They know I'm all in. Yeah

The trap stay jumping  
The gat stay dumping  
You know I'm all in. Yeah  
You don't stand for shit  
You're gon' fall for nothing  
If it's all or nothing  
They know I'm all in. Yeah

The pain won't get out  
The game gon' sell out  
The rage. I let out  
Mix my melodies with the pain  
Your friend might sell out

Ain't no friend out  
A shame how they went out  
Wash away all the tears in the rain  
The rain don't stop pouring  
The fame don't stop calling  
The chain still moonwalking  
Bitch, this bass jumping like Jordan  
Pray for 'em. They're falling  
Space pushing my foreign  
I sutin in the morning  
I'm tryna face all my problems  
Take sutin. I might  
Blaze niggas on sight  
Pree'ing on my ... and my  
Shit. You're right  
I leave it with God. He clear out the path  
I clean up the weapon  
This shit is forever

The trap stay jumping  
The gat stay dumping  
You know I'm all in. Yeah  
You don't stand for shit  
You're gon' fall for nothing  
If it's all or nothing  
They know I'm all in. Yeah

The trap stay jumping  
The gat stay dumping  
You know I'm all in. Yeah  
You don't stand for shit  
You're gon' fall for nothing  
If it's all or nothing  
They know I'm all in. Yeah
