

Bad For Me

Nafe Smallz

Uh

She said she gon' ride, she gon' ride for me, ooh
Love it when you bad for me, baby, you
Doin' all them things, got me onto you
And we gon' catch a flight, baby, hit the moon
Bad, she too bad for me
Ooh, love the way you ride for me, baby, you
Do the kinda things got me onto you

Yeah, get the money, get the wealth
She don't want nobody, she just want me to herself
She hate it when I leave 'cause she don't want nobody else
Got them diamonds on me dancin' like I came up out the shelf
Smokin' on these Gushers like I gave up on my health
I've been makin' all this money off the cards that I was dealt
Eastside, smokin', I'm so high, for real
Hella groupies for the gang or will I keep 'em to myself?
You thought we was playin' till we creep on you in stealth
Professor X upon the chain, you try reach and take a L
Eastside, smokin', I'm so high, for real
All my niggas really with the shit, bitch, you can tell
Told her not to fall in love, so tell me why she fell, ay
Before I leave the crib, she keep on hidin' all my bells, yeah
I just got the Cali' pack and rolled it in a L

Uh

She said she gon' ride, she gon' ride for me, ooh
Love it when you bad for me, baby, you
Doin' all them things, got me onto you
And we gon' catch a flight, baby, hit the moon
Bad, she too bad for me
Ooh, love the way you ride for me, baby, you
Do the kinda things got me onto you

You said, "Baby, why you bad for me, bad for me?"
Make him catch a cab for me
Come to the N15, bring love and don't get too sad on me, yeah
No doubt I run all the fuckin' tabs, homie
Heard you got that big bag, my bag's bigger than that
On my life
Can't match this prize
Tell you to hypnotize, heavier than Jesus Christ
Yeah, I'm smokin' nice, tell me what you like
But I'm your type, I know you feel the vibe
Come through, come through, baby
Come through, let me show you how I do, little baby
You know I'm too wavy, I get a little crazy
Oh I will smoke you, dare you place a bet on me, yeah
I'm a winner, I'm a legend, please don't sleep on me, yeah

Uh

She said she gon' ride, she gon' ride for me, ooh
Love it when you bad for me, baby, you
Doin' all them things, got me onto you
And we gon' catch a flight, baby, hit the moon
Bad, she too bad for me
Ooh, love the way you ride for me, baby, you

Do the kinda things got me onto you
