I woke up leanin' from liquor, we faded
No stress in my head when you roll over naked
And I, I missed your birthday, so it's happy belated
But believe me, I got plans for you, plans for you
No hesitation, I know you been waiting (Uh)
No turning back, I swear that pussy amazing
And I, just call your phone, and you choose the location
'Cause really, that's what fuckin' OG's do

Turn on that shower, I drain that pussy for hours
My shawty, she feel the powers, got my back when I'm round her
Mmm, I just surround her in love and that shit costs thousands
We smokin' a couple ounces and then we climbin' a mountain
I never doubt her, I'm leavin' my gun around her
And her head game was shower, I stand up like a tower
When I give her the loving, she screamin' louder and louder
And my pistol [?] at seven, she told me don't leave without her
My bad bitch, got no feelings
Smoking and then we leaning, uh
Don't need no reason, we're turning up every evening now
I know she dreaming, I asked her what she believe in
She answer me without speaking, minus one I be keepin'
And no, when I, when I, when I
I'm just so busy, man, I ain't got the time
I put my weed into my swisher and dial up on your line
You know why, you know why, you know why, you know why, you know

I woke up leanin' from liquor, we faded
No stress in my head when you roll over naked (No stress)
And I, I missed your birthday, so it's happy belated (Woo)
But believe me, I got plans for you, plans for you
No hesitation, I know you been waiting (Uh)
No turning back, I swear that pussy amazing
And I, just call your phone, and you choose the location
'Cause really, that's what fuckin' OG's do
