

CALI X

Nafe Smallz

New baguettes, cuban link, bust it down
Super wet, Cali X, rollin' loud
New connect, this shit stack a quarter mile (It does)
Louis set, used to rock them hand-me-downs (I did)
Push to start, fuck them niggas, don't play their part
Broken heart, I don't even trust my closest dogs
Stars align, bust down, I got a frozen time
Cold as bine, said that you rich, we know you lyin'

Got the Cali on X
She said she camera shy, she said only film her legs
I'm talkin' big pointers, that's forty-fives on Pateks
Make a choice that make sense, I'm big league I don't rent
She tag team with her friend, she fucking out like a lesbian
Two racks for the Caesar, bitch, kick game FIFA, bitch
Should be in Cali trappin' out the Culli' but can't get the visa, bitch
Chain heavy and it full up of ice, that's where the freezer is
The stick ready, the blick' ready, the brother still [?]
I been on my own shit, I been tryna build Rome quick
Gucci gushers, I roll it
Fuck the bitch, I won't phone it
The richest nigga she rolled with
Said her ex was too controllin'
Bitch I pour Patron in, I'm locked in, now I'm zoned in

New baguettes, cuban link, bust it down
Super wet, Cali X, rollin' loud
New connect, this shit stack a quarter mile (It does)
Louis set, used to rock them hand-me-downs (I did)
Push to start, fuck them niggas, don't play their part
Broken heart, I don't even trust my closest dogs
Stars align, bust down, I got a frozen time
Cold as bine, said that you rich, we know you lyin'

You know this how the game go
New estate I skip the main road
Said he from the streets, then he told
The evidence was weak, he ain't know
We went from the scheme to the show
Servin' to the fiends by the coast
Now I fly a freak to the oce'
She posin' on the D like it's Vogue
Middle of the week make it snow, show me something real
All these bridges gotta burn
Some of these scars won't heal
Still I gotta keep it pressin' like the hundreds runnin' through the money counter
Doors on this whip suicide
Rules of this life, do or die
Silence in the Maybach, diamonds make a light show
Schemin' on some payback, investigation by the Five-O
Sent her a text full of typo, she know I'm leanin' on something
I play with the keys, I'm a strummer
I hop out the Bs, I'm a stunner
It's my zone, fly mode
Cut a key of coke up in my home, I don't need no line phone
Move this weight, I'm like [?]

How am I meant to slow it down now? I'm relentless
New women got my old bitches all restless

New baguettes, cuban link, bust it down
Super wet, Cali X, rollin' loud
New connect, this shit stack a quarter mile (It does)
Louis set, used to rock them hand-me-downs (I did)
Push to start, fuck them niggas, don't play their part
Broken heart, I don't even trust my closest dogs
Stars align, bust down, I got a frozen time
Cold as bone, said that you rich, we know you lyin'
