Yeah, ah  
Hop out the Bentley whip (Woo!) elegant  
Smokin' on medicine (Smoke)  
Only the money is relevant (Cash)  
So give her a rush of adrenaline (Let's go)  
Gentleman, new stick, steppin' in, too lit (Yeah)  
Sweep up the blood with a broomstick (Let's go)

Yeah, ah  
Hop out the Bentley whip (Skrrrt!) elegant  
Smokin' on medicine  
Only the money is relevant (Let's go)  
So give her a rush of adrenaline (Yeah, let's go)  
Gentleman, new stick, steppin' in, too lit  
Sweep up the blood with a broomstick

Shit going perfect, all my G's are paid  
Won't ever go back to them hungry days  
My whole life was fuckin' war, God, I done tug it  
From nothing to something, I know they amazed  
These bitches ain't shit, they just tryna get saved  
Won't be me, I just fuck 'em and dash  
I wrestle love and can't fuck with no hate  
City to city, I'm smokin' on Grape  
Everyone with me on time and  
Head up high while my neck full of diamonds  
They can try take somethin' off me  
That's a cap if I'm goin' I'm dying  
That's a fact, when I pack I ain't lying  
Might just get clapped if bro witnesses iron  
Niggas want me dead, I'm moving with three layers  
Odds I done beat it, I know them boys shying

Hop out the Bentley whip, elegant  
Smokin' on medicine  
Only the money is relevant (Let's go)  
So give her a rush of adrenaline (Let's go)  
Gentleman, new stick, steppin' in, too lit  
Sweep up the blood with a broomstick (Sweep)

Yeah, ah

She begged me to play me a demo  
She sang in the stu', then sang in my room  
Then singin' my name most every tune  
Switchin' the lane, she still in the coupe  
She begged me to play me a demo

Playin' with fire, you're gonna get burned  
She wasn't mine, I was takin' my turn  
She wasn't mine, she was takin' my sperm

Been through the lessons, but I never learn  
He had the blessing, but I live and learn  
My kids and my money my greatest concern  
Still I go run through a whole load of models  
I'm still in the club with a whole load of bottles  
Live for today, never promised tomorrow  
Keeping it all the time

Hop out the Bentley whip (Woo!) elegant  
Smokin' on medicine (Smoke)  
Only the money is relevant (The cash)  
So give her a rush of adrenaline (Let's go)  
Gentleman, new stick, steppin' in, too lit  
Sweep up the blood with a broomstick (Let's go)
