

# Friend Zone

Nafe Smallz

Ooh yeah, yeah  
Bend over  
Yeah, yeah, yeah

At first I tried to put her in the friend zone  
Then I caught her ringing up my damn phone  
I know that she only want a night  
I know she only do it out of spite  
I hit it back to back then send her back home  
I can't get attached, no I can't go  
I can see the fire in her eyes  
I know she only here for the hype

She see me flexing, she tryna get up in my section  
Cah my diamonds are dripping like somebody drenched 'em  
With my slime when I pull up like Red Dead Redemption  
When I dive in, I take her to a new dimension  
I get bust down with the Vs, ice cold, ice lean  
Hype beast, she a baddie rocking Gucci and Supreme  
I just hit it once, I hit this big blunt, big green  
Why she vexed when I'm leavin'? I ain't sell her any dreams, nah (Nah)  
She was poppin' when she popped up on my radar  
I toured the country, now I'm in this bitch with Safe, darg  
My life's a movie, I'm the fucking illustrator  
Can barely see you through this monkey in my face, darg

I know she only here for the hype

I know she only here for the hype  
She know I'm icy, I put that bitch on ice  
I took some losses but I told 'em that it's life  
Can someone tell me where the Ps are 'cause I'm coming for a slice  
Don't get too close, bitch, I'm coming from afar  
I'm a star, they be seeing me from Venus and from Mars  
Got the swammy on deck anytime we in a dance (Bow bow bow)  
She said we friends but she top me like a jar (Let's go)
