

Groupie

Nafe Smallz

New day, we tourin' on Mars
(We got T9C on the track)
Yeah

Put your bitch in a group, she a groupie
Got blood in them diamonds, rubies
New women, I'm picky, I'm choosy
How the hell she so gang and so boujee?
New fit when I came in the spot
He's too weak, he ain't fuckin' on nothin'
Spaceship and we tourin' on Mars
S1, it's a formula car

God know where I stand on this bitch
She suck dick, no hands on this bitch
Two chains, lay a hand on my drip
All white like the Klan in this bitch
Plan B, there's a plan in this bitch
Claypole when I land in this bitch
I arrive with the gang on the strip
Whole team, it's a family ting
Hit the plug ASAP for the Riri
I call my Uber on Siri
Helicopter when I land in the city
Broke bitch, new silicone titties
In a black Maybach, can't see me
Same niggas flip the sum, P with me
When it click, can't jam, it's spinnin'
When it click, can't jam, fuck that

Put your bitch in a group, she a groupie
Got blood in them diamonds, rubies
New women, I'm picky, I'm choosy
How the hell she so gang and so boujee?
New fit when I came in the spot
He's too weak, he ain't fuckin' on nothin'
Spaceship and we tourin' on Mars
S1, it's a formula car

My necklace Highland Spring
Plain Jane, put some diamonds in
One call and they ride and spin
Go mash up the firing pin (Kaboom)
Got your dream girl in your dream car
But she too clingy and eager
Wanna know why I came in a ski mask
Don't know we got a wap in the V-Class
At your door like like TPD
Mask on, no PPE
She don't wanna watch ITV
All she want is some BBC
Spaceship, take her to the moon
Smart whip, I ain't taking balloons
Still in the jungle with apes and baboons

And the laces came with the shoes

Put your bitch in a group, she a groupie
Got blood in them diamonds, rubies
New women, I'm picky, I'm choosy
How the hell she so gang and so boujee?
New fit when I came in the spot
He's too weak, he ain't fuckin' on nothin'
Spaceship and we tourin' on Mars
S1, it's a formula car (Tally)

Bro still gangbangin', man spinnin', no manners
If I pull up with a savage, all my niggas grab bang it
Click, bang, that's a carriage and the roof panoramic
That's your niggas in a panic 'cause my niggas skrirt and vanish
A Capella man a gyalis, got a somethin' out in Paris
And the wap there the maddest, with a Jenner, I'm Travis
Switchblade automatic, they don't want it, but he brang it
Just in case, gotta have it (You know)
Uptown for the shrimp and pasta
Wagwan for that wannabe gangster?
Got left in the ward, he an actor
Congrats, that boy won a BAFTA
Bro wanna trap, tryna keep on
Just bought a bird like Elon
Came in all this Celine, bad bitch, I'm puttin' my D on

Put your bitch in a group, she a groupie
Got blood in them diamonds, rubies
New women, I'm picky, I'm choosy
How the hell she so gang and so boujee?
New fit when I came in the spot
He's too weak, he ain't fuckin' on nothin'
Spaceship and we tourin' on Mars
S1, it's a formula car
