

# IT'S ONLY YOU

Nafe Smallz

You get what you want, we buy out the store  
We don't hit the club, we book out the floor (Uh)  
I'ma send the car, ready when you are  
Fire up the Rolls, you ain't never seen the stars  
So clearly  
Diamonds dancin' like Patrick Swayze  
Yeah, and she fuckin' me like she hate me  
You got options, but it ain't me  
But who can you call on? (But who can you call on?)  
It's only you  
Said who can you call on? (Said who can you call on?)  
It's only you

And if we aim for the stars then we won't be far  
I got what you need and I got what you want  
New heels, no dress, no flaws  
I just wanna see you take it all off  
The way you touch is amazin', I'm lovin' your fragrance  
What I gotta do to get you naked?  
New heels, no dress, no flaws  
I just wanna see you—  
I just wanna see you—

While the day's unfoldin'  
All your fears exposed  
And I stay tryna save your mind  
Like it's a race, can't waste no time  
Just like raindrops fallin'  
All your tears keep crawlin'  
And I been lost for words, can't find 'em (Yeah)  
Broke her heart tryna fix your problem (Gone)  
But who can you call on? (But who can you call on?)  
It's only you  
Said who can you call on? (Said who can you call on?)  
It's only you

And if we aim for the stars then we won't be far  
I got what you need and I got what you want  
New heels, no dress, no flaws  
I just wanna see you take it all off  
The way you touch is amazin', I'm lovin' your fragrance  
What I gotta do to get you naked? Mm  
New heels, no dress, no flaws  
I just wanna see you—  
I just wanna see you—  
And if we aim for the stars then we won't be far  
I got what you need and I got what you want  
New heels, no dress, no flaws  
I just wanna see you take it all off  
The way you touch is amazin', I'm lovin' your fragrance  
What I gotta do to get you naked?  
New heels, no dress, no flaws  
I just wanna see you—  
I just wanna see you—  
Yeah
