

Lawless

Nafe Smallz

Let's go

Drowning in the spotlights
I ain't worried if it drop right
Gucci and some Off-White, baby
People talk a lot like
They ain't worried 'bout their own life
They just try and clock mine daily

I'm high, always throwing more grade in the swisher
Drugs that could take away the pain for a killer
Standing by my side like you made for a nigga
Why I always end up putting faith in a sinner when it's bad times?
I just keep fucking even though I know she 'bout mine
Spend a couple thousand tryna see you with a tan line
95 degrees with the Gs and we outside
So my niggas dressing like they should be throwing gang signs
Even in the Lamb', I can't afford to lose focus
I was stressed out smoking packs to the roaches
Never had a love but I was sure what I needed
When I got this money, it was just what I wanted
Hoping there's a heaven cah my spirit exhausted
I was at the door till they couldn't ignore this
Now I'm overseas tryna buy it, no mortgage
I went from VS to the VVS, now they flawless
She go to extremes to please me like I'm royal
I go to extremes to stay free 'cause I'm lawless
Can't fuck with these bitches, now I can speak cautious
Said I always end in the bed if she gorgeous

Drowning in the spotlights
I ain't worried if it drop right
Gucci and some Off-White, baby
Gucci and some Off-White, baby
Gucci and some Off-White

Middle of the summer, make it feel like winter
If you ain't had your finger numb cold, you a beginner
Piling up the swisher, telling stories of a sinner but
Lately, all my patience run thinner, it's come out blood thick
I'm drowning out my sorrows
Pour up this Henny, think about it all tomorrow
It's never promised, you know all that time's borrowed
Sometimes in life, you gotta keep that prize swallow
It can never be no other man's choices I follow, uh-uh, these niggas hasty
I made the lane, they could never tell you they made me
Pouring out my heart when all my life got crazy
I was lost in these streets but this rap shit saved me, it's facts
You ain't hear my city till I put it on a map
If they try and tell you different, they just hate and it's cap
Hear my old songs, they keep taking me back
Like to every time the police come and raided the flat
Like to every time the police come and raided the flat

Drowning in the spotlights
I ain't worried if it drop right
Gucci and some Off-White, baby

Gucci and some Off-White, baby
Gucci and some Off-White
