

Rich sex, drunk sex and drug sex baby  
Yeah yeah

Ripping up this shit for my piece of mind  
Wonder where I'm at, told all my women I needed time  
Stop and ask nigga, never stop when I see the sign  
Everyday I like my shit, I'll never find no limit  
So high I told her I cannot see the ground  
Henny and Gelato got me texting it's been a while  
You can smell the money when you standing up next to me  
Every time we did it, it was part of her destiny  
Every time we did it, I took over her mentally  
And I'm from the streets, so I love really heavily  
And I'm from the streets this is all trap therapy  
And I've been the illest niggas kill for the recipe  
I just want somebody round me who gone treasure me  
I got fed up with the fake it was draining my energy  
I've been in the city fucking all the celebrity  
If I told you that I love you then you part of my legacy

Part of my legacy, yeah you part of my history  
I'm gone buy another Rollie while I'm buying you Tiffany  
Top floor sex when I had an epiphany  
Tryna find a balance it was always a mystery  
When she see the balance, When I found out she into me  
When she see the balance, When she found out she want some  
Went a put a kilo on my neck it's a whole one  
Went and made a hundred off a set, it's a home run  
Told 'em they gone give me my respect come on  
Fuck her on the marble counter she wet, she wet, she wet, she wet, she  
e wet, she wet

Couple niggas they gone die for that respect  
Nearly made a mill so on a ride with that Tec  
I swear down, it's like it's in my blood forever  
Everytime I smoke it's a cloud, it's a cloud  
I'm up at six still billing my tree  
Last night done the mazz I ain't spilling the tea  
Stepping out with all these chains, got a milli on me  
She suck me for the game, I'm feeling my feet

And we had rich sex, drunk sex and drug sex baby  
Yeah, yeah  
Yeah we had rich sex, drunk sex and drug sex baby  
Part of my Legacy

And we had rich sex, drunk sex and drug sex baby  
Yeah, yeah  
Yeah we had rich sex, drunk sex and drug sex baby  
Part of my Legacy
