

Ocean Deep

Nafe Smallz

Something 'bout ya, something
That keeps me alive
Something 'bout ya, something, baby
That keeps me alive
Something 'bout ya, something, baby
That keeps me alive
Something 'bout ya, something
That keeps me alive
Go deep, go deep

It's my time 'til mi runnin' out of breath
Just let me shine, Rolex inna di Lex'
Mi know them wan' see me in the ambulance
Inna mi heart so it kinda cancerous
Grew up on glamour so them know mi glamorous
Come from the ghetto so them know mi fabulous
Inna the dance mi ah grab the pamelas
Step out the dance mi ah dodge the cameras
Kim in the car, car dashin' to the ends
Police chase, them must wan' mi crash the Benz
Mi in the place, mi make a pledge
See mi with Nafe, them see the dreads
We lock it down from the centre to the edge
Nuh feel a way cah we ready for repent
Mi head gone, mi nuh wan fi go again
You don't see mi, wave out of mi depth

Drown in your love, it go deep like the ocean (Deeper, deeper)
When I'm with you, with you, everything is slow motion (Slow, go slow)
Told her that I love her but my heart is frozen
Champagne sippin' these champagne emotions

I'ma make a toast, crystal for my niggas
And you know I always hold my clique down, we the realest
If I told you that I love you, deep down, yeah I meant it (Yeah I do)
I think this money is takin' over my mental
I'ma keep on, keep on
She just wanna know why my feelings don't show (Don't show)
Lately I been missin' every call on my phone
I think I'm in need of something new in my zone
Me I'm from the ends, still they know I'm fabulous
We nuh keep no fake friends, round me everyting bless
Smokin' in the ends, right back to Northwest
This Cali smoke is givin' me short breath
Even when I'm with the stars, still I'm rollin' with the set
From she seen me in the dance, dance like she get wet
Fly her out to Prauge, ten quid on one jet
I give you something I know you won't forget
Thousand miles an hour, I'm in space, ain't no breaks on
She just wanna keep a little lovin' she can take home
I been lookin' for somebody real in this fake world
She just want somebody who don't leave when the sex done
I made all my money in these streets, as young boy
How I ever make it this far? Only God knows
I just met a hundred different baddies when I was on tour
Still you know I always need your lovin' when I get home

Something 'bout ya, something
That keeps me alive
Something 'bout ya, something, baby
That keeps me alive
Something 'bout ya, something, baby
That keeps me alive
Something 'bout ya, something
That keeps me alive
Go deep, go deep

Drown in your love, it go deep like the ocean (Deeper, deeper)
When I'm with you, with you, everything is slow motion (Slow, go slow)
Told her that I love her but my heart is frozen
Champagne sippin' these champagne emotions

Go deep, go deep
Go deep, go deep
Go deep, go deep
Go deep, go deep
Go deep, go deep
