Glee

Glee, glee

Gone

Hop out that Lamb' in some new baguettes (Glee, glee)

She can't believe how I'm livin' my life, it's a movie set (Glee, glee)

Before you get all of these riches, you gotta know who was there (Glee, ooh)

Reach to the top when you found out they wanna know what you possess (Glee, glee, ooh)

I'm from the bottom where fiends callin' and the streets warrin'

You can smell it in the air

And they be recallin' my G's for 'em, all them twenty disappear (Glee, glee)

Missin' my niggas that I put your face in these diamonds

We shinnin' everywhere (Ooh)

And I had shit I wanted to say to you, guess I'ma tell you when I'm there (Glee, glee)

Spacious spaceships, jewellery is skatin'

Glaciers, I used to sleep on the floor (Glee, glee)

Waitin', patient, I seen the spot, it was vacant, I had to get through the door

Paved the way for niggas, I saved the day for niggas

From space to Wraith interiors

Ace of Spades for brekkie, the Jane is plain but we just too lit to ignore (Glee)

They only some baby flames (Ooh)

I'm sendin' in major waves, all of my jewellery is tailor made

Food come quicker than take away

Fingers are cut from them razor blades

My mamma, she want me to change my ways (My ways)

I got addicted to paper gains (Ayy)

For real (Ayy)

Hop out that Lamb' in some new baguettes (Glee, glee)

She can't believe how I'm livin' my life, it's a movie set (Glee, glee)

Before you get all of these riches, you gotta know who was there (Glee, ooh)

Reach to the top when you found out they wanna know what you possess (Glee, glee, ooh)
