

Who Knows

Nafe Smallz

Uh, and who knows? Who knows?
Where I woulda been if I never lost two of my bros, ooh-oh
You was like a father to me and I know
Who knows? Who knows?
If I woulda seen that light, that light at the end of my road
You told me I should take control and never lose my soul
Who knows? Who knows?
And who knows? Who knows?
Where I woulda been if I never lost two of my bros, ooh-oh
You was like a father to me and I know
Who knows? Who knows?
If I woulda seen that light, that light at the end of my road (Lets go)
You told me I should take control and never lose my soul

From a outside view, I'm just another nigga like you (Right)
Man, I'm hoping my people could come through (Come through)
I'm never gonna change the money, it won't do (Nah)
That's why I'm not the same, the talent, I don't choose
I'm picturing his face, I'm smoking on my zoot (That's right)
Told me "Get to first place, 'cause second, it won't do" (No way)
I woke up in the place disgusted at my view
Nowadays, I don't sleep, my dreams have become true (My dreams)
I'm lookin' back daily, all of the bullshit, it still amaze me (Uh)
Remember seeing my nigga wavey, O-zone
Now I'm thinking 'bout the future, looking crazy
Simply 'cause the fact you aren't with me (Lets go)
I be getting high 'cause I can smoke when I want
Big spliff and a riddim, got me vibing alone (Miss you)
I wish I could just know where you are
Will I get to see you on the day that I'm gone? (I wonder)
I'm still living in the backstreets (Right)
I'm still hoping these demons, they don't attack me (Uh)
I'm wishing I could just see my niggas who's six feet under the ground
I sing your name out loud when I come to the town
Oh why, oh why, do I, do I, never even get to say "Bye" more time?
Waking up and niggas ain't alive more time
Lookin' at your daughter, I can see your eyes more time
And I, I need to focus on the progress (Uh)
Bad bitch, she keep on telling me to smoke less (Uh)
I told her "How you think a nigga gonna flow dis?" (How?)
I was a rapper with the ganja back in 010
And the whole time, I been setting up the whole vibe
And I'm thanking to my niggas light shine, to my niggas light shine
If you ever lose that fight, don't let it make you lose your pride (No way)
Lose your-
