

beautiful trouble

Nahko and Medicine for the People

My name is Bear
I come prepared
Perfect purpose
Compass, all four directions
Solstice, prayer list
Cast this all into silver

What my heart speaks
We be causing some beautiful tr-trouble
What my mind speaks
Are legends I've known and myths to be told

Your name is purpose, damn you are worth it
I feel the faith in your name and that shit is contagious
Let's be dangerous, fucking courageous
I feel the weight of the world changing faces

Little Bear be gracious, grizzly
Let the past pass through you quickly

We be wind walking, mmh
Listen, just stop talking, mmh

What my heart speaks
We be causing some beautiful tr-trouble
What my mind speaks
Are legends I've known and myths to be told
What my heart speaks
We be causing some beautiful tr-trouble
What my mind speaks
Are legends I've known and myths to be told

Well, I hope we wait and see
What's beyond time, or space, or dreams
See how special it can be
To believe in something
Makes you feel free and dream dangerously

What my heart speaks
We be causing some beautiful tr-trouble
What my mind speaks
Are legends I've known and myths to be told
What my heart speaks
We be causing some beautiful tr-trouble
What my mind speaks
Are legends I've known and myths to be told

We be causing some beautiful tr-trouble
