

Through Us

Nahko and Medicine for the People

I live fierce-fully, opposed to all authority
Imposing my basic liberties
Aren't you supposed to be protecting me?
I can govern myself, quite easily
And I know I can not accept this false reality
Oh I... can not speak for anybody else
Though I have seen the common link in the similar ways we felt
Radical reform within myself
And it starts with one and we move to one on one
Da da da...

Lets talk about this raging deity
Empowering these murderous vigilantes
And stem from a hate based ideology
And swearing by their manifest destinies
These are not my founding fathers they are chauvinist thieves
And the ramifications of a nation built on racial prejudice
Can only be more work for a generation like this
To find what can bind us, if we focus
And I'm losing faith, so I take it day by day, mmmm
Da da da...

I say we tear the whole damn thing down to the ground
I say we mobilize and vindicate our loses now
Combat the chaos with the chaos spreadin' all around
Our mothers going to swallow us and spit us all right back out
to survive
Its on my mind, its on my mind, do da dat dah da da da
Warfare machine you will die, by the hands of your own
You'll hang from the high-rise
Burning up in your flag, wrapped in genocide
No more oppressed institutionalized
May I be a vessel that carries the light
New paradigm, do da dat dah da da da
New paradigm, do da dat dah da da da
Its on my mind, do da dat dah da da da
Its on my mind, do da dat dah da da da
New paradigm, do da dat dah da da da
Its on my mind, do da dat dah da da da
New paradigm, do da dat dah da da da
Its on my mind, do da dat dah da da da
New paradigm, do da dat dah da da da
Its on my mind, do da dat dah da da da
