

TRENCHES

Nahko and Medicine for the People

Words are dangerous, keep on playing with my name in your mouth
Normalise it, hyper violent, see what you about
I was holding onto you by threads
Use to love me, but now want me dead
Crying wolf, but you weren't even there
Causing harm that you will not repair

Oh na na na
Lemme fuck with that spaceship, staying here could be dangerous
Getting high on disorder
Oh na na na
High Machs on justice, woke shit destructive
Getting high on disorder

Failed assassination, shame the timeless weapon
And pain is a circle so now you're just as bad as the people
You target to pander, quite the double standard
Does anybody ever think for themselves?

I am alive
I was in the trenches
Before your story mentioned it
And I have survived
Yeah, don't go sleeping on me now
'Cause I survived that woke shit

Critical thinking look at who's drinking up that propaganda
Make an example, how do I handle, yeah, the pressure
Suckas and roaches, most of them hopeless, all of them vultures, target
What are you smoking, tell me your joking, nobody does it like my shit
Heretics are my favourite, I would say the most dangerous
People with no hope are easy to control
The villain that I never was
Problematic, my magic, my love
And the saddest part is that in their hearts they think they're doing God's
work
Your knee is on my neck, no disrespect, that ain't how God works
I tried, I tried dying, but death had other plans
I died, I died, and then I did it again

Oh na na na
Lemme fuck with that spaceship, staying here could be dangerous
Getting high on disorder
Oh na na na
High Machs on justice, woke shit destructive
Getting high on disorder

Failed assassination, shame the timeless weapon
And pain is a circle so now you're just as bad as the people
You target to pander, quite the double standard
Does anybody ever think for themselves?

I am alive
I was in the trenches
Before your story mentioned it
And I have survived
Yeah, don't go sleeping on me now

'Cause I survived that woke shit

I am alive

I was in the trenches

Before your story mentioned it

And I have survived

Yeah, don't go sleeping on me now

'Cause I survived that woke shit
