

Silent Fall

Naildown

On this dead night I stare at
Where this angel used to lie
Caress of your shadow
(Shadow)
Is my cure

And I follow
You to beyond
And it feels so warm
Together we lie

Shadows passing by
Where the ashes used to lie
You never said goodbye
As I watched you fade away

And I follow
You to beyond
And it feels so warm
Together we lie

Silent fall binds me to you
And it feels so warm
This light, so bright
Feels so calm
Together we lie

And I follow
You to beyond
And it feels so warm
Together we lie

Silent fall binds me to you
And it feels so warm
This light, so bright
Feels so calm
Together we lie
