

# Made Up In Your Mind

Nails

Searching for meaning  
Where there is none  
Consuming your impulse  
Poison and numb  
Frenzy of anger  
Shoot your mouth like a gun  
Problems surround you  
But you're not one

Made up in your mind  
Made up in your mind  
All your anguish - all your fears  
Device of your design  
Misery when you appear  
Same thing every time  
Made up in your mind  
Made up in your mind

Everyone hates you  
You're not at fault  
Alone on your own  
Nobody called  
Paranoia and guilt  
Taking its toll  
Painful reminder  
You're not in control

I don't fucking feel sorry for you  
I don't fucking feel sorry for you  
I don't fucking feel sorry for you  
I don't fucking feel sorry for you

Made up in your mind  
Made up in your mind  
All your anguish - all your fears  
Device of your design  
Misery when you appear  
Same thing every time  
Made up in your mind  
Made up in your mind
