## Nails

So idle you sit  
On your throne of shit  
Making claims  
That you'll later regret

Fool for abuse  
In all you lose

So highly esteemed  
Blind sheep lead blind sheep  
You won't show  
To maintain your control

It's so easy to talk about me  
When you'll never come and see me

It's all the same  
A pawn in their game  
Your name is a shame
