

Punishment Map

Nails

Beaten, broken
Unloved, left behind
Envy, panic
Contempt in my mind

Make you feel the way you make me feel
The guilt and shame the pain is all so real
Don't give a fuck how you fucking deal
Make you feel the way you make me feel

Ski mask, flashlight
Rope tied, terrorize
I said "sorry"
But that's just a lie

Make you feel the way you make me feel
The guilt and shame the pain is all so real
Don't give a fuck how you fucking deal
Make you feel the way you make me feel
