it's been a long time but we still rollin'  
now you are lookin' at me like my life is stolen  
never mind my shit is golden  
10.000.000 rappers 1 chosen  
i ain't jokin'  
a lot of families get pay cheques  
after i have spoken  
i am a doc yeah  
the one ya can call when ya feel  
like ya heart is broken  
24/7 operatin' global  
365 handlin' my vocals  
rap is game and i am leadin' 4 nil  
don't know your name and i am feenin' for a meal  
everything we touch goes gold we hungry  
all challenges faced bold like an humvee  
the world is my home ghana is my country  
2009 and i am back can you hear me?

oh can you hear him comin'?  
Comin comin comin comin comin  
oh can you hear him comin'?  
Comin comin comin comin comin

if the good die young then ya talkin' to a bad boy  
we came from far and i am leavin' out the sad story  
where there's no ha ha ha  
just backin' up each other with no bla bla bla  
word that's what it is  
i know i can rely on my brothers and my sis  
don't have to choose which or scare any tricks  
i'll be safe in the middle like cheese in a sandwich  
i roll champions league you are a champ in a sand pit  
i know what you need a van and a bandit  
go play with your station  
before we go real you gotta pass the animation  
holla anytime when advice is needed  
i have been there done that pain all inclusive  
and it was good afterall it didn't kill me  
stop killin' music buy cds do you hear me?

oh can you hear him comin'?  
Comin comin comin comin comin  
oh can you hear him comin'?  
Comin comin comin comin comin
