

You

Nana Darkman

Ooooh, yeah, Mama I miss you!

Chorus:

You, you are the one, the one in my life
Whitout your smile I wouldn't survive
You are the one, the one that I need
Mother, I'm still talking in my sleep

Rap1:

Back in '87, the year you passed away - 1998 and I can still feel the pain - That's nature it gives and it takes -
Lord rescue me forgive me for my mistakes - You are the one the one that I adore - Tu eres mi madre y mi
amore - I look at me all I see is you - Thanks for the education and the rules - I can see you suffer every day
every night - Four kids aside no man that ain't right - Never saw you cry too tough too high - Your level we
can reach the sky - Everything you said is still in my mind - Everything you did was bright like the sunshine
- Everywhere I go you and the Lord protect me - Mama I miss you, Can you hear me?

Chorus x 1

You are the one in my life, you're the one in my life
You are the one in my life, you're the one in my life

Rap2:

I wanna thank you thank you for the birth - The pain you went through I've made it was worth - Thank you let
me say this one more time - It comes from my heart and your love was genuine - I was taught how to use
a fork and knife at table - Taught how to read the bible to be stable - Taught to shae and help my fellow man -
Taught to preach peace from land to land - I used to watch you the way you set things straight - All by yourself
no delaying no debate - Never late always shining like a star -
You had your family and we knew who you are -
I miss you I miss you everyday - I miss you, how far are you away? - I miss you keep showing me the way - I
miss you see you later mama some day...

Chorus x 1

You are the one in my life, talking in my sleep
You are the one in my life, yeah

Chorus x 1

You are the one in my life, mother, mother, I miss you!
You are the one in my life, talking in my sleep
