

# There Ain't No Way

Nancy Sinatra

The dirty rain is falling  
I hear the wind calling me away  
The motel sign is flashing  
And in my mind, I'm crashing  
What to say  
What to say

The words just started flowing  
And the passion started growing  
Like years ago  
The wine made my mind crazy  
But now I'm not so hazy  
I gotta go  
I gotta go

The love we made today  
It was just a foolish way  
To try to bring back yesterday  
There ain't no way

The love we made today  
It was just a foolish way  
To try to bring back yesterday  
There ain't no way

The dirty rain is falling  
And in my mind, it's calling me away  
I'm staring at the ceiling  
I just can't let that feeling make me stay  
I just can't stay

The love we made today  
It was just a foolish way  
To try to bring back yesterday  
And there ain't no way

The love we made today  
It was just a foolish way  
To try to bring back yesterday  
There ain't no way

The love we made today  
It was just a foolish way  
To try to bring back yesterday  
There ain't no way

There ain't no way  
There ain't no way  
There ain't no way  
There ain't no way
