

Before the Rain

Nancy Wilson

A lonely boy came walkin' by
And called my name, called my name
He held my hand and took me where
The grass was green, cool and green
My heart kept wanting me to say
"Hurry hurry! Love me, love me while we may
Before the rain washes it away, away, away, away, away!"

Who knows how long our lips
Will be warmed by the sun, by the sun?
Just stay beside me every day
Until we're one, 'til we're one
And maybe, if we don't delay, hurry, hurry
We can make the good times stay
Before the rain washes it away, away, away, away, away!"

I'm gonna be so close beside you
Through each day, through each day
And keep our love so fresh and growin'
Strong and tall, strong and tall
With every kiss you'll feel me say
"Hurry hurry! Hold me, hold me please I pray
Before the rain washes it away, away, away, away, away!"

Away!
