

THE SECRETS OF THE UNIVERSE

Nanon Korapat

There's always that question
That we'll never get the answers to
Too many equations
Somethings are just better left unsolved

I've been searching for the answers
For my whole life
And I realize

It's easy to say that I'm a fool
I still have many things to learn
The secrets of the universe
Something I don't need to know

I've been searching for the answers
For my whole life
And I realize

It's easy to say that I'm a fool
I still have many things to learn
The secrets of the universe
Something I don't need to know

What is the reason?
Oh I don't know, I don't know
Let's keep the secret
Of the universe
Universe
