

And Then Life Was Beautiful

Nao

Change came like a hurricane
2020 hit us differently
And even though I didn't want it
This old life got a hold of me
How to float when there's no control
Feeling life or nothing at all
Smoke it up till it fades away
Seeing clouds, flying aeroplanes

(Oh yeah)
That's when you know what matters to you
(Oh yeah)
Hope will come someday soon
(Oh yeah, yeah)
Been in the darkness for a while
We'll see the rays shining down (Shining down)

And then life was beautiful (Beautiful, beautiful)
Feel the waves till we rise
And then life was beautiful
A beautiful life

It's the little things
I used to neglect you, used to running away
I never stopped to see them growing (Growing)
I never stopped to see them grow, growing
When the Earth spins around
And it's all coming down (It's all coming down)
And you lose what you found
And you don't even know where to start
Don't even know who you are
(You don't know who you are)

Here's a moment just to think about, think about
All that is you, all that is you, yeah, yeah yeah
Take a second just to breathe it out, breathe it out
Till it feels it good, you're doing so good
Yeah, yeah, yeah yeah, yeah

Here's a moment just to think about, think about
All that is you, all that is you, yeah, yeah, yeah yeah, yeah
Take a second just to breathe it out, breathe it out
Till it feels it good, you're doing so good, yeah

And then life was beautiful (Beautiful, beautiful)
Feel the waves till we rise
Then life was beautiful
A beautiful life

Then life (Then life)
Was beautiful, -ful (Beautiful, beautiful)
Beautiful
(Do we go on?)
Beautiful, -ful
So beautiful
It's a beautiful life
