

Balance

Nao

I'm on the tipping point
Tipping point of catching feelings
I'm taking in the signs
What you're giving, I'm receiving (Uh)

I need the right resonance, right elements
Are you a night veteran, I'm letting in?
Do you like it fast? 'Cause I like it slow

I need balance, balance, keep you on your toes
I need balance, balance, take it nice and slow
I need balance, balance, keep you on your toes
I need balance (Balance), balance (Balance), take it nice and slow
I need balance (Balance), balance (Balance), keep you on your toes

Take time, take pressure off
More life, can't get enough
Late night vibes gotta hit deep
My peace, I celebrate
You're here, please, elevate
Bad mind can't never catch me (Yeah)
I need that moderation
Make sure you treat it like it's sacred
You're the water, I'm the fire, I need cooling down
Get into it, get into it, don't you let me down

I need the right resonance, right elements
Are you a night veteran, I'm letting in?
Do you like it fast? 'Cause I like it slow

I need balance, balance, keep you on your toes
I need balance, balance, take it nice and slow
I need balance, balance, keep you on your toes
I need balance (Balance), balance (Balance), take it nice and slow
I need balance (Balance), balance (Balance), keep you on your toes
