

Curiosity

Nao

Touch me when you feel that ember light
Candle-wax drippin' 'til we're color-blind
Fingertips to trace my lips
Tension 'til the moment gives

Come and take it all
Come and take, it's all for you, you
Baby, have it all
Come and take, it's all for you, you

I'm here to satisfy
I feel your, I feel your curiosity
I'm here to satisfy
I feel your, I feel your curiosity
Whet your appetite
I feel your, I feel your curiosity
Request what you desire
I feel your, I feel your curiosity

You take me to the edge
I submit to you
How it feels when you're
My body's here, express yourself
Ooh, oh

Fingertips to trace my lips
Tension 'til the moment gives
Feel my waterfall
Come and take, it's all for you, you

I'm here to satisfy
I feel your, I feel your curiosity
I'm here to satisfy
I feel your, I feel your curiosity
Whet your appetite
I feel your, I feel your curiosity
Request what you desire
I feel your, I feel your curiosity

Baby, take all of me
I'm open for your desire
And curiosity

I'm here to satisfy
I feel your, I feel your curiosity
I'm here to satisfy
I feel your, I feel your curiosity
Request what you desire
I feel your, I feel your curiosity
