

Drive and Disconnect

Nao

Run, run, running
Drive me away, I
See 'em come, come, coming
Don't wanna stay, wanna stay in
Days like, days like this, like this
Find a better place in this madness

Trying to escape from them, from them
I guess, I guess, I guess

We drive and we disconnect
We drive and we disconnect
Send my best, no regrets
With the wind, I'm gone
I guess, I guess
We drive and we disconnect

Tell me to stay
But I can't, even if I wanted
Tell me to lie
But I committed too many crimes
Let's stay like, stay like this, like this
Why can't we remain like this, like this?

Trying to escape from them, from them
I guess, I guess, I guess

We drive and we disconnect
We drive and we disconnect
Send my best, no regrets
With the wind, I'm gone
I guess, I guess
We drive and we disconnect

Heaven know
Look what you do to me
Heaven know
Look what you do to me
Heaven know
Look what you do to me
Heaven know
Look what you do to me

We drive and we disconnect
We drive and we disconnect
Send my best, no regrets
With the wind, I'm gone
I guess, I guess
We drive and we disconnect

Heaven know
Look what you do to me
Heaven know
Look what you do to me
Heaven know
Look what you do to me
Heaven know

Look what you do to me
