

Summertime hits in the morning  
Window pane, lying on sheets, shadows forming  
Sometimes I gotta check on my pulse, it's alarming  
How I get to wake up like this every morning

I'm not one for being selfish  
I know that I can't help it  
It's like cocaine in your kiss  
The way that I can't go a day without it  
I'm off the ground when it hits  
Hope we stay floating like this

'Cause when we elevate (elevate, elevate, elevate)  
Yeah then we elevate (elevate, elevate)

Off of my face with no fear of falling  
Even down here heaven is calling  
Off of my face with no fear of falling  
Even down here heaven is calling

Know the way  
We push through the stars, how you navigate  
We get up so far, it's a pleasure babe  
I need you to stay  
Want it all for me

I'm not one for being selfish  
I know that I can't help it  
It's like cocaine in your kiss  
The way that I can't go a day without this  
I'm off the ground when it hits  
Hope we stay floating like this

'Cause when we elevate (elevate, elevate, elevate)  
Yeah then we elevate (elevate, elevate)

(Yeah) Off of my face with no fear of falling  
Even down here heaven is calling  
Off of my face with no fear of falling  
Even down here heaven is calling

Off of my face with no fear of falling  
Even down here heaven is calling  
Off of my face with no fear of falling  
Even down here heaven is calling
