

Just Dive

Nao

I'll be up here
Sending you a satellite signal
When you get here
Make sure it's a high you can handle
And we can float slowly
Down 'til you see our own reflection in the water, it's holy
And I'ma have you swimming in my blessing

So we can just dive
Just dive, just dive right in
Baby, just dive
Just dive, just dive, just dive in
Do it with no hesitation
We don't even need to say it
We can just dive
Just dive, just dive right in

Here in the middle of the ocean
I see neon lights here
Let's go a little deeper 'til it opens
Are you coming, baby?
If you don't then I'm going anyway
But if do then we'll ride like the waves

So we can just dive
Just dive, just dive right in
Baby, just dive
Just dive, just dive, just dive in
Do it with no hesitation
We don't even need to say it
We can just dive
Just dive, just dive right in

I hope you swim good
I wanna be with you under the moonlight
And if it feel good
We could be like mermaids, keep it twilight
Yeah, and we can go slow
Breathe
We should take the leap

Me and you together, let's dive
Just dive, just dive right in
Baby, just dive
Just dive, just dive, just dive in
Do it with no hesitation
We don't even need to say it
We can just dive
Just dive, just dive right in
