

Little Giants

Nao

I know that we've been here before
When I build, you take down my walls till they fall down
What it takes to break up the silence
I feel small when you're hiding giants

I've been fighting little fires
You've been holding little giants
You should know me better
You should know me better

Could you water me instead
Overflowing, no regrets
You should know me better
And treat me like your treasure

So hold my wings
Don't, don't let me fly too close to the sun
Don't let me fly too close the sun
Shield my wings
Don't, don't let me fly too close to the sun
Don't let me fly too close to the sun

And I don't wanna play these games
It's like we're living on different planes
I plant seeds whilst you're growing taller

Oooh but we did it anyway
I know you wouldn't do the same for me, yeah
You grow bigger whilst I'm feeling smaller

I've been fighting little fires
You've been holding little giants
You should know me better
You should know me better

You could water me instead
Overflowing with no regrets
You should know me better
And treat me like your treasure

So hold my wings
Don't, don't let me fly too close to the sun
Don't let me fly too close the sun
Oh no no no
Shield my wings
Don't let me fly too close to the sun
Don't let me fly too close to the sun

Feel like I might melt away if you don't
Gravity don't feel the same when you won't hold on
Hold on, hold on
Feel like I might melt away if you don't
Gravity don't feel the same when you won't hold on
Hold on, hold on, hold on

Reimagine your veil as lessons and lift it from your lips
The world can still be as beautiful as you hoped as a kid

Perhaps something to believe in is the greatest antidote there is
Even when winter revolves around us, summer is not dead
It hasn't been defeated
The change isn't the end
The next season waits for you to pick your pen
And write yourself into remembering that life is beautiful
