Nao

You feel like summer
You bring me back to life
You got me reminiscing 'bout a better time
I'm feeling lonely, I want your paradise
If I stay here from your cloud of vapour eyes

Oh, it's all about you

It's just the way nostalgia makes me feel

I like the way nostalgia makes me feel
There ain't nobody better than you

All day you'll remember, our baby
You had me feeling like, oooh, my love
Dreaming of September
Oh, it's all about you

It's just the way nostalgia makes me feel
Ain't nobody better than you
I like the way nostalgia makes me feel
There ain't nobody better than you

That affects me in the ways, that only you do
There ain't nobody better than you
Just take me to a place of honey and dew
Cause' there ain't nobody better than you
I'm soaking up your rays of you
There ain't nobody better than you
Cherishing the way, that only you do
There ain't nobody better than you
That elevates my heart into a new...
