

# Saturn

Nao

I orbit around the way that you are  
Can't help but be drawn because you're a star  
Baby, baby, baby, baby  
Won't you please navigate to me, to me?

I love the way you open my heart  
I feel you around me like Venus and Mars  
So baby, baby, baby, baby  
Please stay and navigate to me, to me

Eventually you will proceed to give me what I need  
Oh, w-w-w-w-woah  
And that's how it should be  
You leave and return  
You're just like Saturn to me, to me  
(Saturn to me)

Oh, no, no, no  
Your constellation circulating me, ooh-ooh  
Like a Capricorn, you're hard to release  
So maybe, maybe, baby, baby  
Would you please find your way back to me, to me? Oh-ooh

Eventually you will proceed to give me what I need  
Oh, w-w-w-w-woah  
And that's how it should be  
You leave and return  
You're just like Saturn to me, to me  
Eventually you will proceed to give me what I need  
(What I need)  
Oh, w-w-w-w-woah  
And that's how it should be  
(How it should be)  
You leave and return  
You're just like Saturn to me, to me  
(Saturn to me)

You return like Saturn to me  
You return like Saturn to me  
You return like Saturn to me  
You return like Saturn to me

Eventually you will proceed to give me what I need  
(You return like Saturn to me  
You return like Saturn to me)  
And that's how it should be  
(You return like Saturn to me)  
You're just like Saturn to me  
(You return)  
W-w-w-w-woah
