

We All Win

Nao

Know I'm all in with my friends
'Cause it we make it in the end
When we all win we go up
When we all win we go up
Fill my soul with happiness
Not alone, I'm with my friends
When we all win we go up
When we all win we go up

In my Polaroid room
Scrapbook pictures of you
Lean on me if you choose
I can hold it down for us too

If you say if need me now
If you say if need me now
When you get low I'll fill you up
Like a balloon we're going up

And if you say you need me now
And if you say you need me now
We can drive up to Inverness
Maybe get a map to reach the end

Know I'm all in with my friends
'Cause it we make it in the end
When we all win we go up
When we all win we go up
Fill my soul with happiness
Not alone, I'm with my friends
When we all win we go up
When we all win we go up

I'm so proud of you
I'll bring crowds for you
Go down memory lane
See how things have changed

North to south with you
Lost but found with you
Lift me every day
Girl, you'll do the same

And if you say you need me now
And if you say you need me now
When you get low
I'll fill you up
Like a balloon
We're going up

If you say you need me now
If you say you need me now
We can drive up to Inverness
Maybe get a map to reach the end

Know I'm all in with my friends
'Cause it we make it in the end

When we all win we go up
When we all win we go up
Fill my soul with happiness
Not alone I'm with my friends
When we all win we go up
When we all win we go up
