

Wildflowers

Nao

Wildflowers they grow on their own
And like the leaves in the wind we go with the flow
From city to city, romancing in Rome
We fly high and land wherever we want
Sweet lullaby we wake up and say goodbye
We sacrifice our youth till the day we die, oh
Either we stay here or don't
Time should wait for us but it won't

So if you really love me
Then say you love me
Till the end of time
Catch me and I'll catch you back
We'll keep falling till the end of time
So if you really love me
Then say you love me
And my shattered mind
Catch me and I'll catch you back
We'll keep falling till the end of time

Wildflowers stuck in a stone
I keep reaching for light but nobody knows
If I'm alive or I'm well or nobody's home, oh
This life will break us, this life will make us, baby let's take hiatus
We sacrifice our youth till the day we die, oh
Either we stay here or don't
Time should wait for us but it won't

So if you really love me
Then say you love me
Till the end of time
Catch me and I'll catch you back
We'll keep falling till the end of time
So if you really love me
Then say you love me
And my shattered mind
Catch me and I'll catch you back
We'll keep falling till the end of time

Worth my love and worth my mind, I'll spend my time on you
Just keep falling with me till the end of time
Till the end of time

So if you really love me
Then say you love me
Till the end of time
Catch me and I'll catch you back
We'll keep falling till the end of time
So if you really love me
Then say you love me
And my shattered mind
Catch me and I'll catch you back
We'll keep falling till the end of time
