See I was familiar with your strength
Tough lovers are always found to understand
The power of losing games and in the end
Heart won't curse of playing and pretend

Are you happy with a lover and a friend
Is this loving what do you feel to comprehend
That is all I wanna ask, far from what's been done instead
Are you happy with a lover and a friend

Over and out we felt this place
I came to learn and not to change
Over and out we felt the same
Let's take a break and start the race
Over and out we had a phase
All the one was there to stay
Over and out you're free to go
Let's meet eachother on a different road

Tensions I know them deep and now I'll bend
Over for the things I don't get
Learning to deal with things instead of
Running away from the feelings I once had

Ooooh ooooh ooooh

Are you happy with a lover and a friend
Is this loving or do you feel to comprehend
That is all I wanna ask, far from what's been done instead
Are you happy with a lover and a friend

Over and out we felt this place
I came to learn and not to change
Over and out we felt the same
Let's take a break and start the race
Over and out we had a phase
All the one was there to stay
Over and out you're free to go
Let's meet eachother on a different road
