

Corrosive Elements

Napalm Death

Staying on an even keel.
Keeping a gauge.
Sanity hangs in the balance.
(I) could go either way.
Cerebral half life.
the darkest Summer days.
My pressure defences melting away.
'Cause I can't level this brimming, seething dread.
My pressure defences melting away.
With anxiety I'm burning!
Stripping down to the core.
Corrosive Elements is inducing.
Corrosive Elements that sap being.
Corrosive Elements inducing.
Corrosive Elements that sap being. (2x)
Corrosive Elements- joy toxin.
Corrosive Elements- please cleanse me!
