

## Uncertainty Blurs the Vision

Napalm Death

A vision of life  
Where together we walk  
Unbound from an existence  
Of fear and pain

The key to which  
Is self-contained  
External freedom  
Must evolve from liberation within

To gain respect  
And see the qualities in all life  
Forms the spark  
Which strikes the light

When so minimal the loss  
How great be the risk  
In reaching out and reclaiming our souls?

But until we overcome  
The uncertainty in our fellow man  
The vision of hope  
Remains an illusion

"You reach out and touch it. You feel it.  
It is the life and love that is alive in you.  
The feeling that is beyond thought  
A feeling of truth.  
Reality in you,  
When it is reached, you can reach it in others.  
This is the liberation. This is the unity."  
[Rudimentary Peni, 1983]

[why this is on the lyric sheet, I have no idea - seems to be]  
[the inspiration for "Uncertainty..."]
