

## Good & Evil

Nappy Roots

Got stuck between good and evil everyday  
What I can, I can not say  
I won't fight it anymore  
I can't fight it anymore  
Gotta keep my head high above the clouds  
Cause when it's low it brings me down  
I won't fight it anymore  
I can't fight it anymore  
Ohhhhhh-ohhhh, ohhhh-ohhhhhh  
Ohhhhhh-ohhhh, ohhhh-ohhhhhh

Bite my tongue's all I did back in grade school  
Back in class, I was smart but I played fool  
And turnin felon at sixteen was so cool  
Cause you don't know what you missin when they was broke too  
And I'm stuck (Between good and evil everyday)  
Some of my favorite rappers told me that crime pay  
I'm glad I learned not to follow what every rhyme say  
I gotta always have a do what's right, mindstate  
I promise (I won't fight it anymore)  
And why should I, well damn it how could I  
If I don't trust me, then how will I know how good I-  
Ever could be, just a G in the hood, high  
They told me keep it real, forever rep ya clique  
For every whoopin don't deserve the same size, switch  
I pray to know the difference, and never lose sight  
I told my brother only keep it real when it's right  
He told me

Got stuck between good and evil everyday  
What I can, I can not say  
I won't fight it anymore  
I can't fight it anymore

I'm feelin like I can take on the whole planet, can't nobody stop me  
These haters wanna see me fail, well damn it they can watch me  
From the paparazzi, seventy, come back like it's Rocky  
And no I'm not Apollo creed, I'm more like El Mariachi  
A desperado wake and sauce  
And all this ain't Versaci  
My word and my balls all I got, you think I'm cocky  
But never mind, I came to grind  
I'm thinkin like a ponzi-  
Scheme when I flip my cheese and swisher sweet to broccoli  
We hotter than hibachi, super crunchy Saki  
Patience and persistence what my grandpapa taught me  
Somebody musta put me here to break up the monotony  
I humbly decline to be the boss, it's way to costly

Got stuck between good and evil everyday  
What I can, I can not say  
I won't fight it anymore  
I can't fight it anymore

Heeeeeeeeyyyy  
Prayer, mama say there's power in it  
Pain, God is how she deal with it

Struggle, she wanted better for her children  
Hustle, that ain't the way Jesus did it  
Violence, Martin Luther woulda been against it  
Fellow man, the Beatles made us all feel it  
Within, that's where you gotta have it  
Or bendin in, ask God and you shall have it  
Trials, that's just a test of your faith  
Vow, to talk with him all the way  
Thirst, to want what I work for  
Sustain, to show you what I'm made of

Got stuck between good and evil everyday  
What I can, I can not say  
I won't fight it anymore  
I can't fight it anymore  
Gotta keep my head high above the clouds  
Cause when it's low it brings me down  
I won't fight it anymore  
I can't fight it anymore  
Ohhhhhh-ohhhh, ohhhh-ohhhhhh  
Ohhhhhh-ohhhh, ohhhh-ohhhhhh

Got stuck between good and evil everyday  
What I can, I can not say  
I won't fight it anymore  
I can't fight it anymore  
Gotta keep my head high above the clouds  
Cause when it's low it brings me down  
I won't fight it anymore  
I can't fight it anymore  
Ohhhhhh-ohhhh, ohhhh-ohhhhhh  
Ohhhhhh-ohhhh, ohhhh-ohhhhhh
