

Ash Anywhere

Narrow Head

I heard you say it's in my head
So I laugh to shut them up
What was that you said?
You talk too slow
You just cry but you don't know why

Falling over in the grass
Sleeping under a cloud
Falling over in my bed
Ash anywhere, it's cool with me

It's too safe to say
You're in my head
One more try let's get this right
What was that you said?
You talk too slow
We just cry and don't know why

Falling over in the grass
Sleeping under a cloud
Falling over in my bed
Ash anywhere, it's cool with me

What was that you said?
You talk too slow
What was that you said?
You're in my head
