

The Real

Narrow Head

You look back and see things now
Nothing lasts forever
Thought you had it figured out
How's that working out?

How good does it feel?
To be you, to be real

Can hardly remember how
This would last forever
A light that flickers in and out
Is it worth it now?

How good does it feel?
How good does it feel?
To be you, to be real
How good does it feel?
To be you, to be real

You'll run away before too long
I shouldn't stay here for too long

How good does it feel?
To be you, to be real
How good does it feel?
To be you, to be real
