

The World

Narrow Head

Take a look around and see who's beside you
Look up to the sky and see

Take a look around and follow the feeling inside you
Take your time and soon you'll see

You say the world is not your own
You say that it's not like it is, but I know

You say the world is not your own
You say that it's not like it is, but I know
You say the world is not your own (Take a look around and see w
ho's beside you)
You say the world is not your own (Take a look around and see w
ho's beside you)
