Nas

OG Talk  
Project halls  
40 Side where a nigga seen it all  
I can send niggas a slide  
I'd rather show them the ropes  
Integrity matters the most  
I gave the hood hope

Damn  
I gave the hood classics  
Something to open your mind  
Instead of going out crashin'  
How was you real when you hate the real  
My nigga I'm simply askin'  
Can't just talk about the plan you gotta put it in action

Ain't no pity party for yourself  
You gotta get up rise for your wealth  
Can't spend all that time in your feelings tryin' to sympathize with yoursel  
f  
Don't nobody owe you  
Ain't nobody holding you back  
You stuck in illusions  
Attached to something that ain't even that  
South Beach, Nassau, Amalfi, Maldives, same beach  
Unless you are after somethin' most men just can't see  
Shorty off the block, shorty off the runway, same freak  
We all got the access to open doors like we share the same key

Damn  
Niggas really got it jumpin'  
They finally gave Nas a Grammy just front me the gold, that wasn't the goal  
First clip was a warning shot  
Nigga we spinnin' back up the road  
Through the boroughs, pull up our Rolls  
Empty this bitch and reload  
Been in it this long, it's gon' look like it's magic  
Only island that my niggas knew was Rikers or Staten  
You get your first V12, tap the pedal then stab it  
Get your first ten milly watch that shit like a habit

'Til then, we gon' be thuggin' behind the project buildin'  
Plottin' on our way that we can make a million, a billion  
Until then, we gon' be thuggin'
