

# Count Me In

Nas

Count me in

Yeah

Yeah

Turn it up let the radio blast  
This a movie can't catch it on HBO Max  
Couldn't play me even back when we was playin' tag  
White snow cover the roof of the navy Jag  
That's crucial  
Loose screws in my mind cause I didn't have the tools to  
Unlock my power, then influence you  
To lock me down it'd take two of you  
Must be delusional dog, I'm livin' beautiful

(3, 2, 1 let's go)

Count me in

Most non-sucker shit you could ever experience

Count me in

Sound of a four-five bussin' that's how I'm killin' shit

Count me in

Sit back and let em expose who they really is

Count me in

We livin' that life

No two lives are alike

We livin' that life

No two lives are alike

Ain't worried bout none of them

They bleed how I bleed

Suffering from the symptoms of King's Disease

Can't let the bright lights go to your head

I watched my day ones go to the feds

5th Ave they snatchin' bags with the double-C's

They itchin' to up the squeeze, shit is not a hunnid til a nigga see a hunnid B's

See the gold and greed take over and kill a hunnid kings

Daily a hunnid niggas come for me

I'm tryin' to calculate the shit they gotta count me in

Can't cure me with over the counter shit

Fireworks every time I turn an album in

When it ain't even July I got it hot again

Majority on a profit split

We winnin' winter to winter

Q-boro don't get hit up

Get through any situation my nigga chest out, chin up

I just like to let it go where it's gonna go  
Tryin' to tell you man
