

I'm on Fire

Nas

Uh

Woke up this morning on some white linen sheets
The bed almost caught ablaze
The temperature's on a hundred in the room
I'm like what's up?

Still got the same flame behind me from the Hate Me Now video
It's continual
All I need is a beat and I'm stitchin' you
Like stitchin' these words together, how I'm still getting better
I'm finding more gold as I dig in the dirt with a shovel
I got the last laugh, don't get blown away by the backdraft

(I'm on fire) Don't be scared now
(I'm on fire) Don't be scared now
(I'm on fire) Givin' 'em hell now
I'm startin' to see 'em sweat
(I'm on fire) Don't be scared now
(I'm on fire) Don't be scared now
(I'm on fire) I'm givin' 'em hell now

Tryin' to walk in my soles is like bare feet on hot coals
Soon as I start heatin' up the whole block froze
I came in without an ordinary name
How many Nasirs? How many top tier?
How many not here?
There's something in the name that's different from theirs
Depicted in scripture holdin' two dragons blowin' flames
Sorry it ain't go the same for y'all
They say Allah, please explain Allah
You Godbody or do you praise Allah?
And still rock crosses all on your chain a lot
I'm scorchin'
And I never forced it
Even when forces and powers that be went against me
Y'all use that as an excuse
You dudes cannot convince me
Or trick me out my spot, y'all want my shit like Sherman Hemsley
I'm debunking the black ball myth
The facts more or less
I might hurt your feelings but, yo, sometimes it actually is
Victimization, mix that with some entitlement
It's bound to explode
I make 'em stop, drop, and roll
Move to the side with it
There's no stoppin' it
I'm rap's arsonist

(I'm on fire) Don't be scared now
(I'm on fire) Don't be scared now
(I'm on fire) Givin' 'em hell now
I'm startin' to see 'em sweat
(I'm on fire) Don't be scared now
(I'm on fire) Don't be scared now
(I'm on fire) I'm givin' 'em hell now

I must say I am what I am

(I'm on fire) They said I wouldn't survive, look at me, damn
(I'm on fire) Like the tip of the barrel that's on a wham
(I'm on fire) He's on fire, NBA Jam

I was all, I was alone like, you know
I was making some moves, I need to like concentrate and chill, but
I was, I was just getting all these calls and everything and it's telling me
like you on fire
