All the way from Queensbridge, my man Nas  
Something new, here we go (Hit-Boy)

Yo, see no evil, hear no evil, speak no evil  
Traffickers, African Latin, wire tappings  
Here come the people, run my people, they don't treat us equal  
I'm talking the law for me, freedom is illegal  
Tape telephone conversations, what kind of nation  
Got three hundred million people they investigating?  
I know they're tryna watch me, a Russian oligarchy  
Politically, it's principle they try to stop me  
Powerful people establish you, they try to mute you  
Unethical ways put you in prison, try to roof you  
Our youth is dead to us, they called us superpredators  
Stupid words from the President's mouth, where are his editors?  
Antarctica is 65 degrees  
Global warming, they don't wanna believe  
And they're hanging people on trees  
And what the fuck is up with Gayle King?  
A black male, a female thing, a failed thing  
Journalism or internalism  
Shirley Chisolm wouldn't play the victim  
Eartha Kitt woulda been finished with him  
Top of the charts, guarded my heart, playing my part  
Sun rising but they want us to stay in the dark  
Scorned woman wanna slump me, to fade me to dark  
King's disease, I cure this shit with my art

The definition of King's Disease  
Well, also known as rich man disease  
You ain't gotta be rich to get it  
Just doing too much, you'll get it  
Gout, uric acid levels up high  
Get you some lemongrass  
Some cherries, alkaline water

Haha
