Thun (Queens in the house)  
Queensbridge baby (Queens in the house)  
No doubt  
No doubt, no doubt, no doubt (Queens in the house)

Not niggas I really met through music shit  
It be some real thuns I grew up with  
Phone calls from the Feds, long stories told fast  
Wishin' they get home in a hurry 'cause we the last  
Of a dyin' pack of lions, nightmares of the cast  
Thoroughbreds survivin', you know?  
(Queens in the house)

Welcome home, Ronnie Bumps  
And love to Corley, that boss ordered us lobster tails late night in 40  
We was out there tryin' to rid the stress  
Had a beat tape from Stretch  
Rest, black TEC, black vest, to match the dark aura  
We hit the city deep in the Explorer  
Lookin' at The Source, wish I was the cover story, that was comin' shortly  
Cars back then had raw packed in  
Rest in peace a few good men, the God Starkim  
(Queens in the house)  
I pop a bottle, we're not promised tomorrow  
Showin' love is the motto  
Flex a cowboy hat, strapped like Desperados  
They ain't lit one out the chamber  
No iron fired, in a vegetative state  
When that man China died  
Stomped out on 12th Street  
Memory fails me  
Heard homey was a real G, that's what they tell me  
I was the one to run through the functions, no funny actin'  
And it was me that introduced many to money bags and  
(Queens in the house)

Grandmaster Vic  
(Queens in the house)  
The DJ's Disco Twins  
(Queens in the house)  
From the Towers to Promenade  
(Queens in the house)  
Post a party up at Starlets, they know Queens in the house

No beef or rivals, they playin' "Ether" on Tidal  
Brothas can do anything when they decide to  
In a Range Rover dissecting bars from "Takeover"  
Sometimes I text Hova, like nigga, this ain't over, laughin'  
I had to hold it down for Queens 'cause I overvalue fiends  
Shout to Brooklyn, all between hoods be overlappin'  
Subways be stacked, and I ain't been on a train in decades  
And I can still hear the wheels on the tracks  
(Queens in the house)  
Feel the beat breaks, serial defaced for jakes  
A license to carry still ain't safe in New York state  
It's still a lot of ways to manage the life expectancy average  
The future of our next generation ain't been established

Conflicted by some of the same patterns that had us  
Money and social status, tell me what really matters  
So who are you when they turn off all the cameras?  
With me, you know the answers  
(Queens in the house)  
Go ask Tony Bennett  
(Queens in the house)  
Terrace on the park, they gotta know  
(Queens in the house)  
DJ Clue, Envy, and Camilo  
(Queens in the house)  
Where all my most beautiful Queens in the house

When you see me at awards or a popular place  
I see chains shinin', I wanna stockin' over my face  
Coordinator tried to see me about some popular names  
For a second I'm on some shit like it was back in the days  
When dudes would really put that thing up to your rib cage  
Or pull a switchblade, do anything, it's the Bridge way  
But I goes stu, roll through, just sold out the 02  
Piece on my neck in a Hi Tech Polo suit  
(Queens in the house)  
Drove down Van Wyck  
Coliseum & Stan Smiths  
Tan blick in the desert, Bricktown where my mans live

Not niggas I really met through music shit  
It be some real thuns I grew up with  
Phone calls from the Feds, long stories told fast  
Wishin' they get home in a hurry 'cause we the last  
Of a dyin' pack of lions, nightmares of the cast  
Thoroughbreds survivin', you know?  
(Queens in the house)

No doubt  
(Queens in the house)  
No doubt, no doubt, no doubt  
(Queens in the house)  
No doubt  
(Queens in the house)  
No doubt, no doubt, no doubt

I'm on some shit, boy  
Makin' a classic tonight  
That money getting borough 'bout that action, that's right

Thunderous  
What up thunny thun thun  
Mad thunderous  
Okay, now  
Manhattan keeps on makin' it  
Brooklyn keeps on takin' it  
Bronx keeps creatin' it  
And Queens keep on CAKIN' IT  
Shouts to the West side  
To the 6 Borough, Far Rock  
South side and North side  
(Queens in the house)
