

Bring Me An Angel

Nashville Cast

People talk about tomorrow
Like they know which way to go
Like the path that they follow
Ain't a winding twisting road

'Cause lately it seems
I don't know where to go
Or what's become of me
Won't you bring me an angel
Call one quick
Make me a miracle
I could use it
Bring me an angel
Bring me an angel

I hear words like "Don't worry,
Sleep it off, close your eyes"
But I found the past ain't in a hurry
To make its way off my mind

'Cause lately it seems
I can't forget
Sometimes it's so hard to breathe
Won't you bring me an angel
Call one quick
Make me a miracle
I could use it
Bring me an angel
Bring me an angel
Won't you bring me an angel
Could you bring me an angel
