

Fall To Fly

Nashville Cast

I'm holding all the pieces now
They've broken off and fallen down
This had to be, but my eyes still sting
And I can't help the asking why
But going back won't make it right
I can't unbleed but I can be free

When you're down looking up at the ceiling
Feels like you're starting from the beginning
It's alright 'cause sometimes you've gotta fall, fall, fall to fly

I'm picking up and moving on
Don't really care, what's done is done
'Cause now I see how strong I can be
I don't know where I'm gonna go
But any which way the wind blows
You will find me at five thousand feet

When you're down looking up at the ceiling
Feels like you're starting from the beginning
It's alright 'cause sometimes you've gotta fall, fall, fall to fly
If you've lost everything that you wanted
Love left you all alone, broken hearted
It's alright 'cause sometimes you've gotta fall, fall, fall to fly

I'll be breaking through the sky
I've never been so alone
But I have never flown so high

Sometimes you lose, sometimes you win
I'm not afraid to start again
It's hard to laugh but this pain's gonna pass

When you're down looking up at the ceiling
Feels like you're starting from the beginning
It's alright 'cause sometimes you've gotta fall, fall, fall to fly
If you've lost everything that you wanted
Love left you all alone, broken hearted
It's alright 'cause sometimes you've gotta fall, fall, fall to fly

You've gotta fall
You've gotta fall to fly
Fly
